## Is it Science? Don't Be Fooled!

(N.O.T.T.R.U.)

Science  Science  Not Science  1. The Sun warms the Earth unevenly.  2. I'm 100% safe from lightning in my home.  3. My birthday falls under the sign of Aquarius so I am creative & loyal  4. There is life somewhere in the universe.  5. Snow occurs in temperatures that are 32° F or below.  6. Cloud seeding can be used successfully to improve a ski resort's snowfall.  7. The meaning of life can be determined and verified.  8. Scientists decide that Pluto should be classified as a dwarf planet.  9. It's predicted that the weather on Friday will be a high of 40° F and rainy.  10. Windows should be opened before a tornado hits to equalize air pressure.  11. If you place an inflated balloon into a freezer, it will shrink in size.  12. I am definitely going to be rich.	•	<u>,                                     </u>	37.4	MODEL
